Cuccette singole:	2 crew
Cuccette doppie:	2
Cuccette twin:	2
Cabine:	4
Servizi igienici:	4

DESCRIZIONI FORNITE DAL CANTIERE

The Sunseeker Manhattan 80 builds on the performance of the Predator 80, offering more luxurious accommodation on three levels. Capable of speeds up to 36 knots, and with an extended cruising range, this craft is designed for all-weather performance. The large flybridge station, with seating for eight, is complemented by an interior with a split-level saloon. From the lower lounge there is double access through sliding doors to the spacious aft sundeck with its teak bathing platform and the stern-opening garage for the Bandit or water toys. Free-standing furniture in the saloon allows the option of an open or enclosed bar or study. The raised forward saloon includes a suggested dining area overlooking the water, with chairs to seat eight. With the master stateroom situated quietly amidships, an en suite guest cabin forward, and two additional cabins, the Manhattan 80 sleeps up to six in comfort. Fitted with fixtures and fittings of the highest quality, and with a range of furnishing options, the Manhattan 80 delivers genuine superyacht style. There is further accommodation for three crew in two cabins, and they have their own galley, from which there is easy access to the spacious engine room. Besides the many features provided as standard, perhaps the most distinctive attribute of this exceptional yacht is the design flexibility available. Sunseeker works with the 80's owners to help achieve original layouts, taking into account such things as crew quarters location, galley positioning, and any other specifications. MANHATTAN FLYBRIDGE MOTOR YACHTS: Sunseeker's Flybridge Motoryachts combine all-weather comfort with exceptional space. Sleeker than other craft of this kind, Manhattans have a slightly wider waterline beam than other sunseekers, allowing space for large saloons and well-appointed cabins. The upper deck presents an elevated driving position and a sun-deck with panoramic views: a superior position from which to command the boat or sunbathe. SUNSEEKERS: Sunseeker is the largest privately-owned builder of production cruisers in the world today. The performance of its boats demonstrates the skills of its world-class design team. Sunseeker uses the best materials, the latest design techniques and construction methods, together with rigorous quality control procedures. With a choice of propulsion systems, layouts and furnishings and fittings, these boats are truly made to order. Sunseeker support is available all over the world.

ENGINE NOTES

Caterpillar available.
Top speed of boat: 36 mph
